Calcium Carbonate	176.7 g/kg
Molasses	99.5 g/kg

Contains Soybean and Canola Meal for enhanced palatability

DIRECTIONS FOR USE & FEEDING RATE

1 level scoop = 30g
The amount fed should be mixed well with the normal feed.
Use the scoop provided to measure the amount fed.

FEEDING RATE PER DAY:

1. Foals - up to 6 months	15g
2. Foals - over 6 months	30g
3. Yearlings	30g
4. Spelling Horses	30g
5. Pregnant & Lactating Mares	60g
6. Stallions at Stud	60g
7. Horses in light work	30g
8. Horses in medium to heavy work	40g
9. Ponies	20g

Caution: Excessive feeding rate of Vitamin A can lead to hyper-vitaminosis. As with all multivitamin preparations, allowance should be made for vitamins derived from other sources.

BENEFITS

1. Vitamin A for maintaining normal vision, skin, bones, muscles, growth and reproductive performance.
2. Vitamin C for healthy cartilage, tendons and bone.
3. Supports normal immune system function and resistance to infections.
4. High levels of the B Group Vitamins necessary for nerve and muscle function, blood cell formation, healthy skin and hair and energy metabolism
5. Lysine & Methionine for normal protein synthesis and liver detoxification

Vitamin injections (pre-race or competition are not necessary when using this product)
