## HORSEPOWER

# MINERAL SUPPLEMENT

A palatable supplement containing high levels of all the necessary minerals and trace elements which may be low or deficient in the horse's normal diet.

### CONTENTS

Calcium (Ca) as Dicalcium Phosphate	188.6g/kg
Phosphorous (P) as Dicalcium Phosphate	130.5g/kg
Magnesium (Mg) as Magnesium Oxide	27.3g/kg
Zinc (Zn) as Zinc Oxide	3.76g/kg
Copper (Cu) as Copper Sulphate Pentahydrate	2.4g/kg
Manganese (Mn) as Manganese Sulphate	5.4g/kg
Cobalt (Co) as Cobalt Carbonate	14.2mg/kg
Iodine (I) as Potassium Iodide	12.9mg/kg
Selenium (Se) as Sodium Selenite	15.0mg/kg
Sodium (Na) as Sulphate & Chloride	42.5g/kg
Vanilla Flavour	1.0 g/kg
Skim Milk Powder	60.0g/kg

### DIRECTIONS FOR USE & FEEDING RATE

The amount to be fed should be mixed well with the normal feed or bran mash. Use the scoop provided to measure the amount.

### FEEDING RATE PER DAY:

1 level scoop = 60g

1. Dry Mare/ Mature Horse	60g
2. Late Pregnancy Mare	60 - 90g
3. Lactating Mare	90g
4. Foal 4 months (if weaned)	60g
5. Weanling 6 - 11 months	60g
6. Yearling 12-18 months	90g
7. Racehorse	60g

For use in horses only.  
See pack label for further directions.

### BENEFITS

**Calcium & Phosphorous** are required for bone growth and maintenance as well as normal nerve and muscle function. Calcium also plays a role in blood clotting and cardiac function.

**Zinc** is needed for normal growth and metabolism and is involved in bone and cartilage development, wound healing and the maintenance of healthy skin, hair and hooves .

**Manganese** for bone, cartilage and connective tissues, normal growth reproduction and lactation as well as blood clotting.

**Copper** for coat colour, cartilage and elastic connective tissues like tendon and ligament.

**Iodine** for thyroid function and regulation of growth and several metabolic processes.

**Cobalt** is essential for formation of Vitamin B12, haemoglobin and red blood cells as well as normal nerve function.

**Selenium** is involved in anti oxidant processes and essential for normal growth and fertility.

**Sodium** is one of the principal electrolytes in the horse's body.

### PACK SIZES

Available in the following pack sizes:  
15 Kg, 4 Kg Tubs
