

“During the last couple of overseas trips we had some tying-up issues with Virgil, including during the WEG2018 campaign. So when we got home we asked Horsepower for their assistance with his dietary requirements. They had a new low starch extruded feed they were trialling, so we based Virgil’s diet around that. Together with this feed and a careful exercise program, Virgil arrived and competed in Tokyo at full strength. It was great to have Virgil at the Olympics in tip-top condition and full of CONFIDENCE.”

Shane Rose – Tokyo2020 Eventing Team Silver Medallist
